

WEDDING PHOTOGRAPHY BROCHURE 2025/2026

Hello!

My name is Harriet...

and I LOVE

WEDDINGS

This is me!

A bit about me... I'm a **cat-obsessed**, **gin drinking**, **cup half full** Devon photographer. I was born and raised in South Devon, and after a few years in Sunny Surrey, I now live in Torbay with my Husband Rich, our son Barney, daughter Maisy, and our two cats Fifi and Milo!

Besides photography, I also love travel, weddings (obviously), organising, cats, crafts, the seaside, chocolate, dancing (even though I'm AWFUL) and generally anything that makes me laugh or fills my soul (and tummy).

This is Milo, he loves catnip, waking me up at 5am & running around the house like a lunatic. He's used up 8/9 of his lives (he jumped out of our upstairs window when he was still a small kitten and just came back inside and tried to do it again...)

Your day, your way!

BE YO-SELF!! There should be no pressure to fit a stereotype, just because it's your wedding day. Your wedding should represent YOU... If you want to wear a bright blue dress, or a flower crown in your hair, if you want your cat to be the ring bearer or get married in a tree house then DO IT.

And then contact me to photograph it because that sounds amaaaaazing!

"Harriet was one of the best things about our wedding. As soon as I met her for a cup of tea and a chat, **I knew that she was our kind of person - the kind we would love to have at our wedding as a guest never-mind a photographer!** She made everything so easy and really listened to what we wanted, and on the day itself she managed to capture every single special moment. We are thrilled with our beautiful photographs."

- Terry & Felicity

I have a relaxed and fun photography style, capturing every moment of your day from the nervous giggles in the morning, to the drunk uni mates doing the worm on the dance floor. I'm there to record your awesome wedding so that you can re-live it over and over again.

So you're planning a super fun wedding and need a creative photographer to capture every moment?

Also, did I mention I love weddings?
I freakin' love them.

"Harriet captured all the magic of the day. Be aware this woman is a ninja or a wizard or a combo of the two. She appears and disappears and captures a moment in time you can keep forever, and you never even knew she was there! This led to some fabulously funny and some very poignant photos."

My style and approach

I could describe my style in one word... COLOUR!
But here are a few more to give you a bit more of an idea of how I photograph weddings.

My photography style is fun, relaxed & candid, so I become one of your friends for the day, blending in, having fun & dancing the night away whilst capturing every moment of your wedding: the looks, emotions, laughs, silliness, and even mad uncle Alan heckling the groom as he gives his speech (yep, I'm referring to my own wedding).

No awkward photos here, thanks very much.

It's been a while since mentioning my cats so....

This is Fifi, she is sassy, super cuddly and
has permanent immaculate eyeliner. She winds Milo up and then gets annoyed with him when he takes it too far. Siblings through and through!
She also has a weird habit of licking my hands and patting my face for attention in the morning.
She is braver then Milo and takes more risks.... I'm pretty sure she's a feminist... or felinist?
Girl Power!

""I am so glad we had Harriet as our wedding photographer. She took the most amazing photos that we will treasure forever. We laughed a lot and had so much fun but most importantly she made us feel so at ease and we were able just to relax! "– Chris & Lizzie

"Harriet was absolutely fantastic. Despite the weather, she took some amazing photos and was able to use the rain to create some memorable images."

- Andy & Elaine

If you don't take life too seriously and love to have fun then we will get on well. I love couples who don't conform and who make their wedding totally unique to them... whatever that looks like! Bonus points for those who love cats and drinking tea (or gin) all day long. We're going to be friends.
